MOHAMMAD MUJTABA SEKANDARI

FULL-STACK DEVELOPER | DATA ANALYST

Kabul, Afghanistan | +93 783 249 790 | mujtabasekandari470@gmail.com | github.com/Mujtaba25-maker

PROFESSIONAL SUMMARY

Full-stack developer and data analyst with hands-on experience building responsive React applications, integrating REST APIs, and creating Power BI dashboards. Skilled in JavaScript, Node.js, Python, SQL, Pandas, Excel, and data visualization. Completed practical projects spanning supermarket management, online learning interfaces, retail profitability reporting, HR attrition analysis, and student-performance machine learning coursework.

TECHNICAL SKILLS

Web development: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap, Node.js, Express.js, REST APIs; foundational Next.js

Databases & tools: MySQL, PostgreSQL, MongoDB, Git, GitHub, Postman, VS Code, Vercel

Data analytics: Python, Pandas, NumPy, Microsoft Excel, Power BI, Matplotlib, data cleaning, ETL/data transformation, statistical analysis, dashboards and reporting

Machine learning: Regression, classification and clustering coursework using Google Colab (Linear/Logistic Regression, KNN, Decision Trees, K-Means, SVM)

EXPERIENCE

Frontend Development Intern | Upskill

- Develop responsive user interfaces using React, JavaScript, HTML, CSS, Tailwind CSS and Bootstrap.
- Integrate REST APIs, collaborate using Git/GitHub, and debug application behavior.

SELECTED PROJECTS

Retail Sales & Profitability Dashboard | Power BI

Built an interactive retail reporting dashboard displaying sales, costs, profit margin, regional performance, customer rankings and time-based trends; added filters for year, region and category.

HR Analytics & Employee Attrition Dashboard | Power BI

Cleaned and transformed employee data and designed an interactive dashboard analyzing attrition, workforce demographics, salary groups, job satisfaction, and departmental trends.

Hanzala Supermarket Management Dashboard | Web Application

Developed a supermarket management interface covering sales, orders, inventory, customers, suppliers, invoices, operational summaries and stock alerts.

MonksHub & Educore | Responsive Web Interfaces

Created educational website interfaces featuring course discovery, landing-page content, instructor sections, calls to action and responsive layouts.

Student Performance Machine Learning Study | Python, Google Colab

Prepared separate notebooks for Linear Regression, Logistic Regression, KNN, Decision Tree, K-Means and SVM experiments with the Student Performance Factors dataset; coursework covers preprocessing, model evaluation and visualization.

EDUCATION & PROFESSIONAL LEARNING

Jahan University | Sixth semester (degree/program to confirm)

Microsoft Power BI training and practical dashboard work | English Language Diploma (details to confirm)

LANGUAGES

English | Dari | Pashto
